Collective Investment Schemes (Unit trusts) should be considered as medium to long-term investments. The value of participatory interests (units) may go up as well as down and past performance is not necessarily a guide to future performance. Collective Investment Schemes (Unit trusts) are traded at the ruling price and can engage in scrip lending and borrowing up to 10% of the market value of the portfolio to bridge insufficient liquidity. Collective Investment Schemes (Unit trusts) prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (Brokerage, Market securities tax, VAT, Auditor's fees, Bank Charges, Trustee and Custodian fees and the annual Management fee) from the portfolio divided by the number of participatory interests (units) in issue. Fluctuations or movements in exchange rates may cause the value of any underlying international investments to go up and down. A schedule of fees, charges and maximum commissions is available on request from Prescient Management Company Ltd and/or Maestro Investment Consulting. Commissions and incentives may be paid and if so, are included in the overall cost. Forward pricing is used. Maestro Investment Consulting and Prescient Management Company are members of the Association of Collective Investments.
